WEBINARS

Presenters:

David Morroll, PhD,
Director of Clinical Support,
CooperSurgical Fertility and Genomic
Solutions

Martine Nijs, PhD
Global Training Manager,
CooperSurgical Fertility and Genomic
Solutions

Part I | Monday, April 27: Managing quality in the IVF laboratory

In this webinar, David Morroll, PhD will introduce concepts of quality assurance and quality control in the context of the ART laboratory, drawing on international guidelines and highlighting factors contributing to an effective quality management system, such as staffing, competencies, traceability, and managing risks and adverse incidents.

Part II | Tuesday, April 28: Evaluation of IVF laboratory outcomes with key performance indicators (KPIs)

Following on from Monday's session, in this webinar, Martine Nijs, PhD will continue with the theme by discussing the importance of KPIs for monitoring outcomes in your IVF laboratory as well as to manage performance of staff.

Both webinars will be repeated in four different time zones:

- Session 1: 3-4pm MYT (Kuala Lumpur; UTC +8)
- Session 2: 11am - 12pm CEST (Paris, Berlin, Madrid; UTC +2)
- Session 3: 12-1pm EDT (East Coast USA; UTC -4)
- Session 4: 12-1pm PDT (West Coast USA; UTC -7)

These webinars are aimed at:

- Any member of the reproductive medicine team wishing to learn about quality management and its application to the ART laboratory.

Other key information:

- The webinar will be held in English
- Attendance is free for all participants
- Participants will obtain a certificate of attendance by email within two weeks of the webinar

WEDNESDAY, APRIL 29

Meet with our experts

Our in-house experts will be available on Wednesday April 29 for individual virtual meetings to discuss any unanswered questions you have from the webinars, and help provide further information on the week's theme.

Meetings will be available throughout the day to suit all time zones.

[Bookings will open after the first webinar session on Monday](#)
