**15<sup>th</sup>** Croatian Congress on  
**GYNECOLOGICAL  
ENDOCRINOLOGY, HUMAN  
REPRODUCTION AND MENOPAUSE**

**8<sup>th</sup>** Congress of the Croatian  
**SOCIETY OF CLINICAL  
EMBRYOLOGISTS**

with International Participation

OPATIJA / **September 11-13, 2025**

**Dear colleagues,**

We are on the verge of a new big Congress on gynecological endocrinology, human reproduction and menopause.

This congress, which traditionally gathers around 700 participants from Croatia and abroad, is considered not only the most attended gynecological event in Croatia but also one of the most important in the region.

We are confident that the 15th Croatian Congress on Gynecological Endocrinology, Human Reproduction, and Menopause, along with the 8th Congress of the Croatian Society of Clinical Embryologists with International Participation, will provide wide possibilities of new knowledge about most current topics, attractive for every participant.

That's why we invited exceptional lecturers, world experts as well as top regional experts. We have also selected topics for engaging discussions, debates, opposing views and workshops. Additionally, we will propose several clinical guidelines.

To repeat the success of previous congresses, we kindly ask you to decide on your participation by the end of February 2025.

The organisation of such a significant gathering with a valuable scientific and social program is only possible with your financial support and sponsorship. We thank you in advance and look forward to another successful collaboration.

Best regards,

Prof. **Dinka Pavičić Baldani**, MD, PhD  
President, Croatian Society for Gynecological  
Endocrinology and Human Reproduction

Mr. **Dejan Ljiljak**, MSc, Dipl. Ing.  
President, Croatian Society of Clinical Embryologists

## Topics: **GYNECOLOGICAL ENDOCRINOLOGY AND IVF**

- What Happens in the Uterus Lasts a Lifetime:  
A multidisciplinary approach to improving care before conception and during early pregnancy
- Failed Implantations, Recurrent Pregnancy Losses, and Endometrial Disorders
- Immunization in Pregnancy: Myths and facts
- From Preparing for Pregnancy to Delivery:  
The importance of the microbiome and nutritional supplements
- From Diagnosis to Delivery: The role of ultrasound in women's health
- AI in Obstetrics: Leveraging machine learning to predict adverse pregnancy outcomes

- Redefining Diagnostic Criteria for Vaginitis/Vaginosis
- Cervical Neoplasms: Myths and realities of HPV vaccination
- Surgical vs. Non-Surgical Treatment of Ectopic Pregnancy
- From Symptoms to Solutions: A comprehensive approach to abnormal uterine bleeding
- Endometriosis: Breaking the silence on a painful problem
- Toolkit for Endometriosis: Essential strategies for medical treatment
- PCOS: A journey through the mysteries of an enigmatic syndrome
- Living with PCOS: Tips for a healthier future
- Reproductive Health Under Scrutiny: How obesity changes the narrative
- Current Strategies in Diagnosing and Treating Premenstrual Syndrome (PMS) and Premenstrual Dysphoric Disorder (PMDD):  
A multidisciplinary approach

- Personalizing Contraception:  
How to tailor therapeutic options to individual needs
- Safety and Efficacy: Evaluating new contraceptive options
- Understanding Menopause: The science behind the symptoms
- Managing Menopausal Vasomotor Symptoms:  
There's no one-size-fits-all solution for all women
- Combatting Menopause Misinformation with  
Evidence-Based Medicine
- Ovarian Reserve Testing and Interpretation
- Optimizing Ovarian Stimulation Protocols:  
Personalized approaches in IVF
- The Role of Endometrial Receptivity in Successful Implantation
- Single Embryo Transfer (SET): A safer path to pregnancy
- Ovarian Stimulation Protocols for Oncology Patients
- Understanding Preimplantation Genetic Testing (PGT)
- Clinical KPIs: Current state and trends.
- Overview of the Latest ESHRE Guidelines
- Interpreting Results from Assisted Reproductive Procedures
- AI in Assisted Reproduction: Pros and cons

Topics: **EMBRYOLOGY**

- RIF (Repeated Implantation Failure) and RPL  
(Recurrent Pregnancy Loss): Insights from Embryologists
- New Discoveries in Embryo Cell Culture Composition
- Emerging Technologies in Sperm Selection:  
“Microfluidic sperm sorting”
- SET vs. DET (Double Embryo Transfer): Less is more!
- Conventional IVF vs. ICSI: Decision-making based on egg or  
sperm quality
- Ultra-Fast Oocyte and Embryo Vitrification Methods:  
Are we taking a step forward?
- Vitrification and Its Impact on Epigenetics: What do we know?
- Updates from the Istanbul Consensus
- IVF Laboratory Quality Control
- Success of Frozen Embryo Transfer (FET)  
Procedures: Day 5 vs. Day 6
- New SoHO regulations
